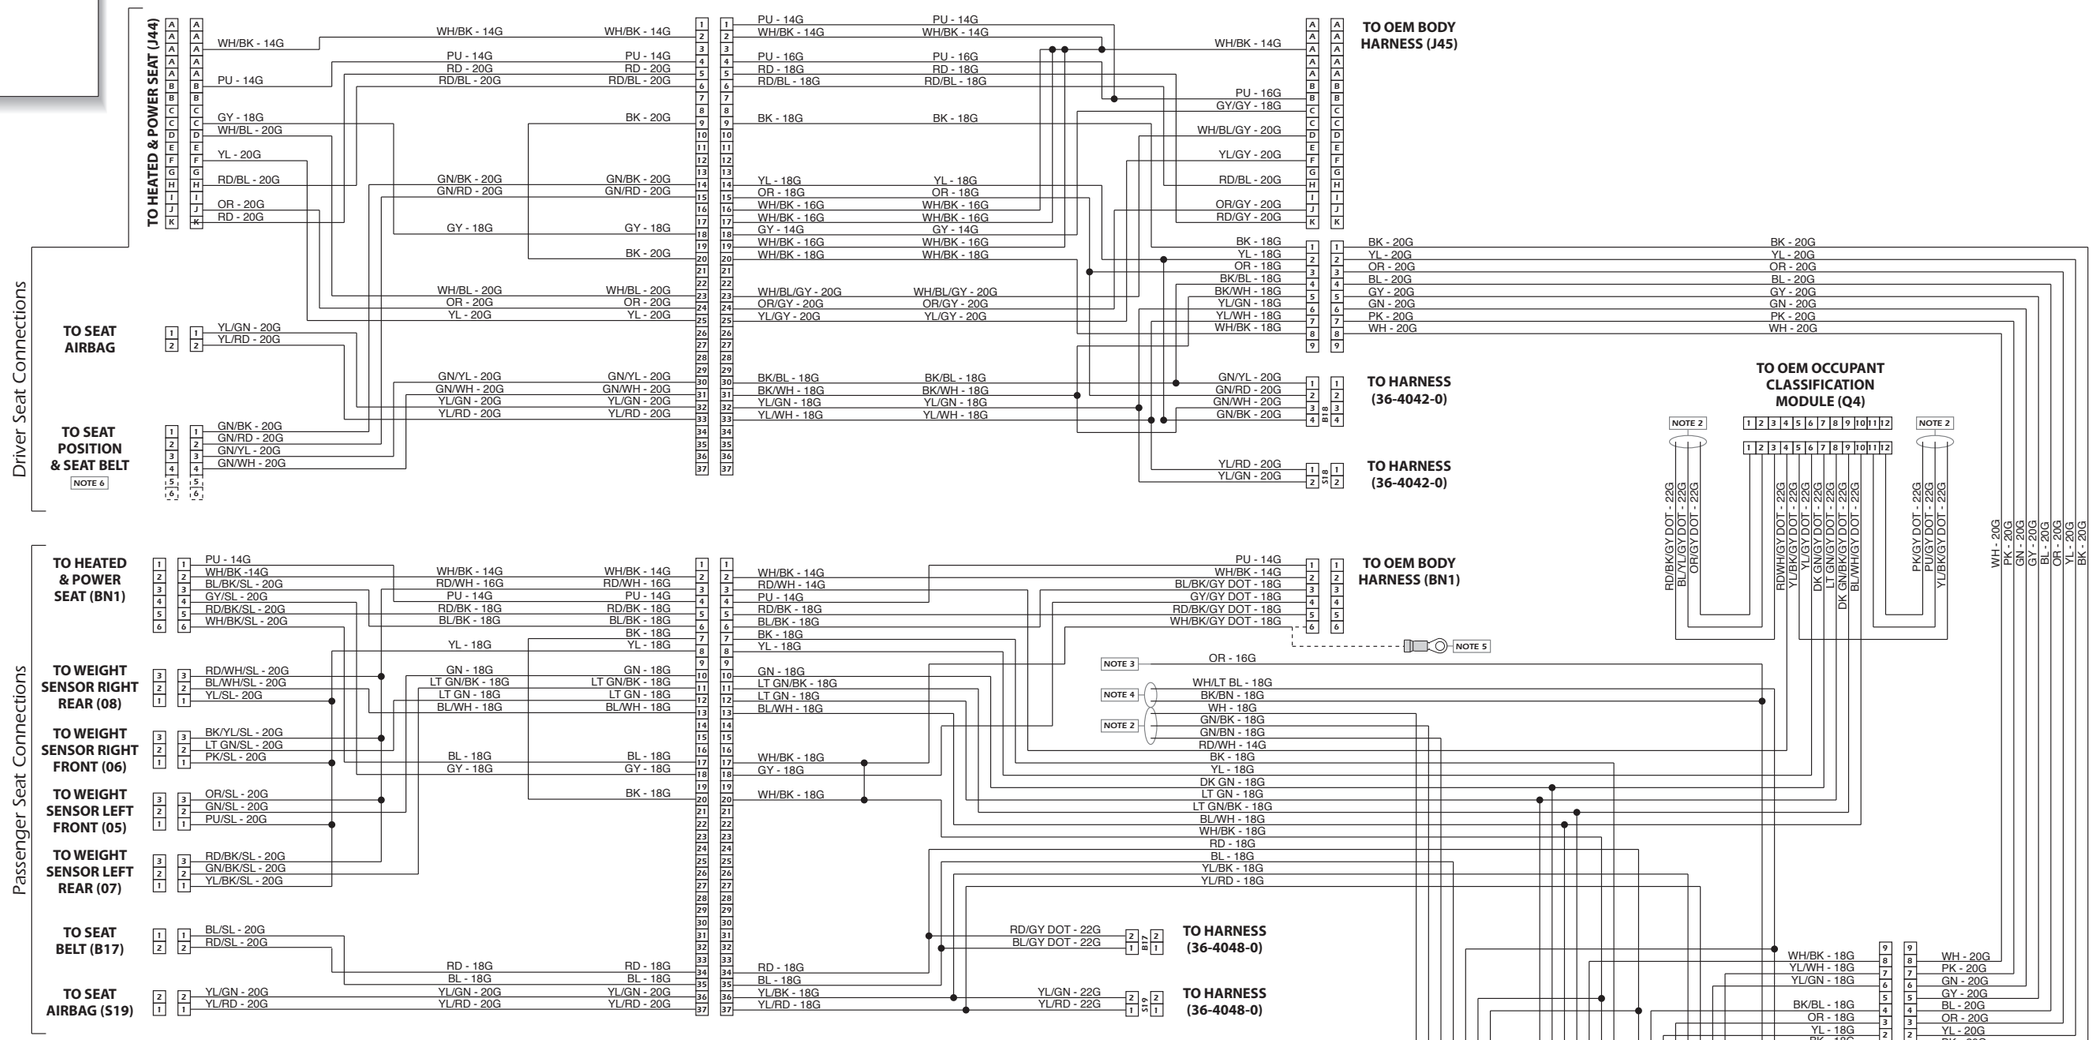
Pre-2007 Seat and Airbag Wiring Diagram

Pre-2007 Seat and Airbag Electrical Schematic



DRAWING NOTES

1. Junctions only occur at intersections with junctions symbol. All other intersections are wire crossings with out junctions!
2. Wires are cut and heat shrunk together.
3. Soldered into cruise control ignition (PINK wire) or cigarette lighter.
4. Wires are soldered together in harness.
5. Hardwire to B-pillar bolt for manual passenger seat only!
6. Connector is 4-pin for manual seat & 6-pin for power seat. Pin location does not change!
